**TRAINING
PROSPECTUS
2014**

"Computer Pride has been a great partner, providing our staff with flexible schedules with which staff can attend to classes and schedule for exams. Computer Pride staff is dedicated to ensure the students gets the full benefits from the classes they undertake while allowing them to have extra sessions with the trainers and granting them extra lab sessions. Through their help, we have been able to meet our staff training and development objective thus giving us a competitive advantage against our competitors". Lilian Nduta Waweru, Team Leader Field Operations, Access Kenya Group

"I will give credit where it's due, that's why am back to thank Computer Pride team. You gave us a competent tutor who portrays confidence and knows his stuff. We are very thankful and request that the trainer takes us through the next module also. The class is now challenging". Oracle DBA class of Nov 2012

"During the past 4 years, our Human Resource/Learning and Development team has worked closely with team on numerous staff training events. The company offers quality training. Across the board, we are always pleased with their work". Libya Oil Kenya Limited, Shamim M. Chanzu, Manager, Human Resources/Public Affairs

Company Profile

Our Vision

Computer Pride's vision is to be recognized as a respected IT firm, highly valued by its customers, employees and partners, and to ultimately spread this reputation across Africa.

Our Mission

To consistently provide the market with industry-ready graduates through the provision of innovative and dynamic IT training solutions with relevant technologies through international partnerships. To collaborate with our customers to provide them with the right solutions that lead to their success and to build the capacity of our nation in order to improve productivity, with a view to remaining globally competitive.

Our Goals

- To bring technologies that are most relevant to the requirements of our customers.
- To help our clients maximize on their investment in people and technology.
- To provide world class training solutions that are globally marketable.
- To work with our stakeholders to create a change in our society and world at large.

Our Background

We are a private limited company established in 1990 with the core business of training and developing solutions with respect to Information and Communication Technology.

We have over the years positioned ourselves as market leaders and have created a niche for ourselves in providing market-driven training solutions and services.

Backed by one of the highest concentration of dedicated ICT professionals and trainers, more than 25,000 professionals have graduated with our various certification programs. The company has invested in time and resources, which have been the key drivers of our year-on-year growth and diversification.

Our Strengths

Over the years, our enduring strategy has been three-pronged - Right Technology, Right People and Right Partnership. This approach has had a significant effect in our rise to be the leader in ICT skills in Kenya. We have partnered with global technology leaders to continuously bring globally competitive Information Technology skills closer to the people and further the noble course of human development in technology application.

We pride in a culture of empowering our people by giving them 'the right skills in the right environment.' We have inculcated in our staff the need to keep abreast with technology and apply the same within the organization.

Our Technology

The implementation of several high-end solutions within the operations of our organization is a manifestation of the competence and dedication of our technical and professional team. Among the solutions implemented within the company are:- Structured Cabled Network of over 150 Computers, Windows Servers with Active Directory, MS Exchange Mail Server, MS SharePoint Server, Sage Accounting Solutions, Students Management Systems, Microsoft CRM Solution, ISA Server, the SMS Server, VMware servers and the VPN within branches.

Our Social responsibility

We endeavor to transfer skills to the most disadvantaged members of our society and keep them in touch with what it takes to live fulfilled lives.

Training Rooms

We have a total of twelve (12) modern equipped computer laboratories, three lecture rooms and two workshops for hardware and software support.

Permanent Internet Access

Our Training rooms have a total of 6MB Internet connection and free access for students for research and e-learning.

Library

The main source of information in the modern time for students apart from Internet is a resourceful Library where they can find reference reading materials at any time.

Location

The Company has two training centers in Nairobi:

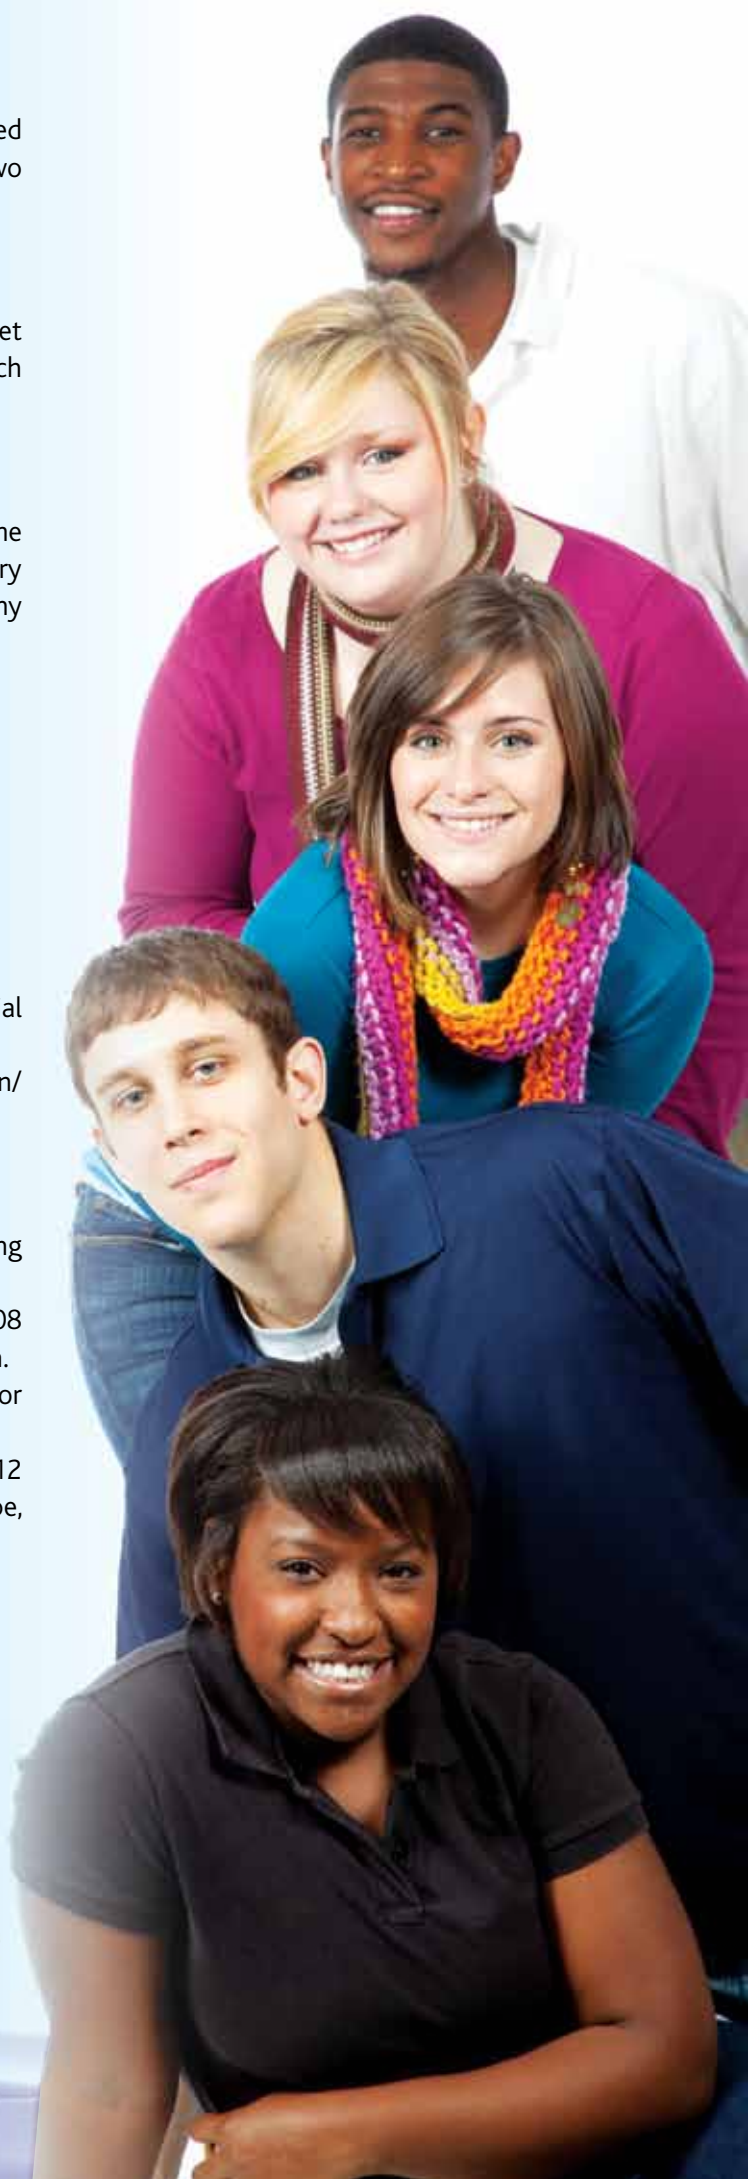

- ICEA Building 1st floor Kenyatta Avenue.
- Kenya Cinema Plaza 4th floor, Moi Avenue

Validations and Approvals

- Approved by Ministry of Education
- Registered Trainer with (Directorate of Industrial Training) National Industrial Training Authority
- Approved by the Commission of Higher Education/ Commission of University Education

Awards

- Computer Society of Kenya's – Best I.T. Training Centre (2002/3/6) in Kenya
- Microsoft Learning Partner of the Year 2007, 2008 and 2009 in Eastern and Southern Africa Region.
- Prometric Testing Center Silver Partner Award for year 2008 in Africa
- NCC Education 10 Year Partnership Award in 2012
- Cisco Acceleration Award for year 2012 in Europe, Middle East, Africa and Russia Region (EMEAR)

Our range of certifications that will help you drive your growth;

ICDL

International Computer Driving License is an international digital literacy qualification. ICDL is used as a yardstick to measure your ability to competently use a digital device like a computer, laptop, etc.

Based on the new ICDL track incorporating the current digital trends, ICDL is ideal for persons starting their career journey and wish to portray digital skills in their CV. It is also ideal for mature candidates who are looking at enhancing their digital skills.

Flexible class hours, certified trainers, extended practice time and an authorized exam center are some of the services you will enjoy at our ICDL center.

CompTIA

CompTIA certification is a vendor neutral certification that offers a stepping stone to those who aspire to take up high end IT certification. The two flagship program under CompTIA certification is **A+ User Support Skills** and **N+ Network Support Skills**.

A+ User Support Skills provides a candidate with skills on how to assemble, troubleshoot and support various digital devices including desktop computers, Laptops, printers.

N+ Network Support provides basic skills on the practical features of a network and how to setup and support a basic network infrastructure. Fully equipped technical lab and an elaborate curriculum are some of the features in our CompTIA classes.

Cisco

Cisco certifications forms one of our advanced networking courses. In this certification participant's main focus of study is how to configure, troubleshoot and manage Cisco Routers and Switches.

IT Graduates, experienced network support staff who wish to up skill to a level of a network engineer are ideal candidates for this certification. The certification is tiered to provide skills growth that measure to the market needs. Popular certification tracks include **Cisco Certified Network Associate (CCNA)** and **Cisco Certified Network Professional (CCNP)**.

Being an Authorized Cisco Learning Partner and award winner EMEA region (2012), quality training is guaranteed.

Microsoft Partner
Gold Learning

Microsoft

Microsoft is one of the most popular and widely used technology in the world. We provide a range of Microsoft certification that focus on different segments of the technology industry. For those with aspiration to excel in the digital technology, Microsoft certification provides you with international certification that will fuel you to new heights in your career.

Certification are classified based on technology: **Network Infrastructure (Win Server 2012, Databases (SQL), Mail Services (Exchange Server), Collaboration (SharePoint), Cloud Computing, Office Application, Developer (Visual Studio)** products and many more.

Computer Pride, three time Winner of Microsoft Learning Partner award, provides us with the maturity and confidence to give you an extraordinary training experience.

Oracle

Skills in Oracle products are among the most sought in the market. With certification ranging from **Databases (Oracle DB), Development (Java), and Open Source Operating System (Linux)** is a sure item on your career journey.

The Oracle certification is provided in two programs of either **WDP (Workforce Development Program)** or the **Corporate Program**. WDP is geared towards participants who sponsor themselves while corporate is for company sponsored students.

By virtue of being an authorized Oracle Education partner, it gives us an opportunity to provide standard and recognized curriculum that match the requirement of the ever dynamic digital world.

EC-Council

EC-Council certification is an industry leader in the provision of security based certification that is vendor neutral.

For both experienced and novice IT Engineers EC-council certifications provides you with the skills to confidently protect and administer security controls on your network infrastructure. It provides users with skills to protect their information assets and securely work in a digital environment.

Popular certifications include **Certified Ethical Hacker, Certified Secure Computer User, Disaster recovery professional**.

VMware

VMware the industry pioneer in virtualization technology. The **VMware** certification provides participant with the skills to simplify IT complexity across the entire data center through virtualization technology.

VMware certification is a high end certification targeting experienced IT administrators who are interested in harnessing the power of virtualization. Computer Pride, the only authorized learning provider in Kenya, brings you one of the most sort technologies in the market at your convenience with certified trainers and flexible class schedules.

ITIL

The Information Technology Infrastructure Library (ITIL) is a set of practices for IT service management (ITSM) that focuses on aligning IT services with the needs of business.

This certifications is ideal for participants who wish to integrate the IT processes and procedures with the organization strategy.

Certification available include: **ITIL Foundation, ITIL Intermediate and ITIL Expert.**

Project Management Institute

Project Management Institute (PMI) certification is a program targeting both practicing and aspiring project managers. The curriculum is not specific to any industry but provides knowledge and skills to professionally manage any type of a project. PMI partner status gives us the ability to provide professional and quality training focused on making the participants competent Project Managers.

Certified Associate in Project Management (CAPM) for aspiring project managers and **Project Management Professional (PMP)** for practicing project managers are the popular certifications for PMI.

ICDL Training & Tests

ICDL Tuition & Exams

COURSE CODE	COURSES	DURATION
ICDL PART ONE: Four Modules		
CA 738	Computer Essentials	20 Hours
CA 739	Online Essentials	10 Hours
CA 703	Word Processing using MS Word	20 Hours
CA 740	Online Collaboration	10 Hours
		16,000/=
ICDL PART TWO: Three Modules		
CA 705	Spreadsheet using MS Excel	20 Hours
CA 706	Database Management using MS Access	20 Hours
CA 707	Graphical presentation using MS Powerpont	20 Hours
		16,000/=

The above fees is inclusive of Training, Course Material, Exam Preparation, ICDL Skills Log Book and Exams

PAYMENTS ARE MADE IN ADVANCE UPON BOOKING. PARTICIPANTS SPONSORED BY ORGANIZATION WILL BE CHARGED 16% VAT ON THE ABOVE FEES.

FOR NON-ICDL STUDENTS: (MOP, MOS)

Log book: 4500/= Exams: 1000/= per exam

NB: To re-sit for an exam will cost Kshs. 800/= per module

Microsoft Office Professional (MOP)
